

To the unfortunate guy/girl who has to read all these letters,

Hi there. I'm a loyal listener of Air1 radio which is broadcast over a local FM translator service and this is a quick note in response to MB Docket No. 04-233 to express my opposition to giving priority to LPFM stations.

1. Air1 is one of the best radio stations in my community and there are certainly no others like it. Because it is one station rebroadcast all over the U.S. it is able to afford having higher quality programming and general content than other stations because of monetary efficiency. I would be very sad to see this station disappear under the influence of LPFM stations which probably can't compete in user preference ratings.
2. Air1 is in the public interest of my community because it reaches the specific needs of its listeners. As a centrally located Christian station, Air1 does something that no other Christian radio can: they pray for their listeners three times a day. If it were smaller station Air1 could not do half as many of the things that it does for the community. In further discussion I would be happy to expound but for the sake of brevity let me summarize by saying that Air1 is an indispensable part of our community.

Thank you for your time and may God grant you wisdom with your pending decision.

**Regards,
Jonathan Elder**
